Dear Mr. Veneroso:

Thank you for your letter of March 24, 1977, requesting information on Kodaflex DOP plasticizer. We tested Kodaflex DOP against DOT Hazardous Regulation No. 49 CFR 100-199, and Kodaflex DOP was not found to be subject to these classifications. Therefore, it has no hazardous shipping classification. Also, it has no IATA number.

For your information enclosed are our technical data sheet on Kodaflex DOP and our Materials Safety Data Sheet.

The information in this letter and the enclosures are furnished free of charge on the condition that neither Eastman Kodak Company nor its subsidiaries shall be responsible for the use of such information. You must make your own determination of the suitability and completeness of this information for your use and for the safety and health of your employees.

Your interest in Eastman's products is appreciated, and we look forward to being of continued service to you.

Yours very truly,

EASTMAN CHEMICAL PRODUCTS, INC.
